

SURYATHEA DEVERAKONDA

Full Stack Developer

Plano, TX | 972-793-7007 | deverakondasuryatheja@gmail.com

www.linkedin.com/in/suryadevera-konda-5bb1bb331 | <https://suryathejadeverakonda.com/>

PROFESSIONAL SUMMARY

Versatile Full Stack Developer with comprehensive training in web development technologies and programming languages. Proficient in both front-end and back-end technologies including HTML, CSS, JavaScript, Python, and Node.js. Experienced in building responsive static websites, dynamic web applications, and database management. Dedicated to continuous learning, problem-solving, and delivering high-quality, user-centric solutions in fast-paced environments.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, SQL, TypeScript

Front-End: HTML5, CSS3, Bootstrap, Flexbox, Responsive Web Design, React, RESTful API integration

Back-End: Node.js, Express.js, Django, Flask

Database: SQL, MongoDB, PostgreSQL

DevOps & Tools: Git, Command Line, Docker, CI/CD pipelines

Testing & QA: Jest, Mocha, Chai, Selenium

PROFESSIONAL EXPERIENCE

Full Stack Developer | Digi-Key Electronics

Remote / Thief River Falls, MN - June 2022 – Present

E-Commerce Platform Modernization:

- Contributed to Digi-Key's flagship e-commerce platform, supporting millions of global users
- Implemented responsive UI components using HTML5, CSS3, and Bootstrap for cross-device compatibility
- Leveraged Flexbox for advanced layout designs, improving user experience across product pages

Order Management System:

- Developed scalable services using Node.js and Express to handle order processing
- Implemented Python scripts for data analysis and reporting of inventory metrics
- Created dynamic interfaces with JavaScript for real-time inventory visibility

Performance Optimization:

- Refactored front-end components using modern JavaScript practices, reducing page load times by 30%
- Optimized database queries and implemented caching strategies to improve API response times

Cross-Functional Collaboration:

- Collaborated with design, product, and business teams to deliver feature enhancements and bug fixes
- Participated in code reviews and knowledge sharing sessions to maintain code quality

Notable Project:

- **Digi-Key Product Search Redesign:** Applied responsive web design principles using Bootstrap and Flexbox to create an intuitive, mobile-friendly search interface that improved conversion rates by 15%

Junior Developer | LTI Mindtree

Mumbai, India - June 2019 – June 2022

Web Application Development:

- Contributed to front-end and back-end development of enterprise web applications
- Built responsive UIs using HTML, CSS, and JavaScript following design specifications
- Developed and maintained database schemas and SQL queries for data operations

Training & Skill Development:

- Completed intensive training programs in full-stack technologies

- Applied newly acquired skills in Python, JavaScript, and Node.js to solve real-world business problems
- Participated in code reviews and debugging sessions to improve code quality

Client Engagement:

- Assisted in gathering requirements and translating them into technical specifications
- Presented demos to stakeholders, showcasing implemented features and functionality

Notable Project:

- **Internal Dashboard Tool:** Created a responsive dashboard using HTML5, CSS3, and JavaScript that improved team productivity by centralizing project metrics and task management

EDUCATION

Master's Degree in Computer Science

Southern Arkansas University | Magnolia, AR | August 2022 - May 2024

Bachelor's Degree in Computer Science

Osmania University | Hyderabad, India | August 2015 - May 2019

CERTIFICATIONS

All certifications earned through **CCBP 4.0 INTENSIVE** program by **NXTWave** (April 2022)

1. **Build Your Own Static Website**
 - Technologies: HTML, CSS, Bootstrap
2. **Build Your Own Dynamic Web Application**
 - Technologies: JavaScript
3. **Programming Foundations with Python**
 - Technologies: Python
4. **Responsive Web Design Using Flexbox**
 - Technologies: Flexbox
5. **Node.js**
 - Server-side JavaScript runtime environment
6. **JavaScript Essentials**
 - Core JavaScript programming concepts
7. **Developer Foundations**
 - Technologies: Git, Command Line

8. **Build Your Own Responsive Website**
 - Technologies: Bootstrap, Flexbox
9. **Introduction to Databases**
 - Technologies: SQL

PROJECTS

Personal Portfolio Website

Tech: HTML5, CSS3, Bootstrap, JavaScript

- Designed and developed a responsive personal portfolio showcasing projects and skills
- Implemented Flexbox for modern layouts and Bootstrap for responsive components
- Optimized for performance and cross-browser compatibility

Task Management Application

Tech: JavaScript, Node.js, Express.js, MongoDB

- Built a full-stack task management application with CRUD functionality
- Implemented user authentication and authorization
- Created RESTful APIs for front-end and back-end communication

Data Analysis Dashboard

Tech: Python, Django, SQL, HTML/CSS

- Developed a data visualization dashboard for analyzing and presenting complex datasets
- Implemented database queries to extract and process information
- Created interactive charts and graphs for intuitive data representation

PROFESSIONAL DEVELOPMENT & COMMUNITY INVOLVEMENT

- Active participant in local tech meetups and webinars
- Contributor to open-source web development projects
- Continuous learner through online platforms and documentation
