

Surya Theja Devera Konda

Mobile Application Developer | Android & iOS Expert | Flutter Specialist | suryatheja148@gmail.com | +1 870-230-9695 | Irving, TX

About Me

Dynamic and results-driven Mobile Application Developer with a strong background in creating and optimizing cross-platform apps using Flutter and native technologies. Skilled in enhancing app performance, integrating third-party services, and fostering user-centric designs. Passionate about leveraging technology to create seamless and engaging user experiences.

Work Experience

Mobile Application Developer, ATD (American Tire Distributor)

June 2023 - Present

- Developed and maintained high-performance native Android applications using Kotlin, leveraging clean architecture principles.
- Modernized legacy codebases by migrating to Flutter, reducing development time by 40% while ensuring cross-platform functionality.
- Streamlined CI/CD pipelines using Jenkins and GitHub Actions, optimizing build and deployment efficiency.
- Implemented end-to-end mobile automation testing with Espresso, achieving a 98% crash-free rate.
- Integrated RESTful APIs and third-party libraries for real-time data synchronization and dynamic user experiences.
- Enhanced app performance, reducing load times by 30%, and collaborated with UI/UX designers for consistent cross-platform experiences.
- Documented technical processes and mentored junior developers in clean coding practices and state management.

Mobile Application Developer, CSS Corp ICT Services

June 2020 - June 2022

- Designed and deployed native Android applications using Kotlin and Java, delivering scalable solutions.
- Transitioned projects to Flutter, reducing development timelines by 35% and enhancing maintainability.

- Developed advanced UI components with adaptive layouts for compatibility across various devices.
- Integrated payment gateways (Stripe, PayPal) to improve transaction reliability.
- Executed unit and automated testing, identifying and resolving 95% of pre-launch bugs.
- Automated build processes, reducing manual intervention by 50%, and optimized app performance.
- Mentored junior developers and participated in code reviews to ensure high-quality codebases.

Education

Master of Science in Computer Science

Southern Arkansas University
August 2022 - May 2024

Bachelor of Technology in Computer Science

Osmania University
May 2019

Skills

- **Languages:** Kotlin, Swift, Java, Dart, JavaScript
- **Frameworks:** Flutter, Android (Kotlin/Java), iOS (Swift/Objective-C)
- **State Management:** flutter_bloc, Riverpod, Provider, Redux
- **Cloud/Databases:** Firebase, RESTful APIs, GraphQL, SQLite, Room Database, CoreData, PostgreSQL
- **Version Control:** Git, GitHub, Bitbucket
- **Testing & Debugging:** JUnit, XCTest, Mockito, Charles Proxy, Postman
- **Development Practices:** Clean Architecture, SOLID Principles, CI/CD Pipelines
- **Collaboration Tools:** JIRA, Figma, Slack
- **Other Skills:** UI/UX Design, Performance Optimization, Payment Integration

Projects

Healthy Barcode Scanner

December 2024

- Developed a cross-platform mobile app using Flutter for product barcode scanning and real-time data retrieval via RESTful APIs.
- Integrated AI-powered Nutri-Score analysis with GPT-4 Vision for personalized health recommendations.
- Enhanced user engagement with a minimalist and adaptive UI design.

Retail Management App

January 2022 - June 2022

- Built a Flutter-based app for inventory tracking, sales monitoring, and order processing.
- Integrated secure payment gateways like Stripe and PayPal for seamless transactions.
- Designed responsive layouts for compatibility across Android and iOS devices.

Native Expense Tracker

January 2019 - May 2021

- Developed a native Android app using Kotlin for personal finance management.
- Implemented Room Database for offline data storage and efficient synchronization.

Languages

- English: Fluent
- Telugu: Native

Interests

- Mobile Technology
- App Optimization
- Exploring New Frameworks
